6 LinkedIn profile fixes for founders

Buyers often look at your profile before they answer your message.

1

Headline

"Founder at XYZ" tells a buyer very little. Say who you help and how.

> *Helping textile exporters cut packaging costs | Founder, XYZ*

2

Banner

Use it like a shop signboard: what you do, who it is for, and one proof point.

3

About section

Write it for your buyer, not like a resume. Mention the problem you solve, how you solve it, and how to contact you.

4

Featured

Pin your best case study, catalogue or client video so people can find it quickly.

5

Activity

Post or comment at least twice a week. An empty activity tab looks like a closed shop.

6

Contact info

Add your website and the best way to reach you.

Want us to look at your profile?

We rewrite founder profiles and set up a posting plan you can keep up with.
