FASTGROWS

Plan your 2027 marketing on one page

Six things to write down before the new year.

1

One clear goal

Write a number, like "40 qualified enquiries a quarter", instead of "grow brand awareness".

2

Who you sell to

Industry, role, city, and the main problem they want solved.

3

Two main channels

Pick two you can manage well. For many B2B firms that is LinkedIn plus email or WhatsApp.

4

Content themes

For example: case studies, how you work, your team, and your view on the industry.

5

Numbers to track

Cost per lead, lead-to-meeting rate and average deal value.

6

A monthly review

Spend 30 minutes on the first Monday of each month looking at what worked and what to change.

Want help filling it in?
