Growing Laurels Clan International School online

Social media, website and Google improvements · Prepared for LCIS management

Dear Sir/Ma'am,

Greetings from Fastgrows! I am Vahida Malik, founder of Fastgrows, a digital marketing agency here in Vadodara. I saw that Laurels Clan is hiring a Social Media Executive, so I went through your Instagram page and website. Your school is doing wonderful activities with the children, and I feel that with a few improvements, many more parents can find you and enquire for admissions.

Instagram and Facebook

1. Your profile name and bio can be improved so that parents can find you easily and know about admissions, classes and contact details.
2. I will add highlights for Admissions, Facilities, Teachers, Parent Reviews and Campuses.
3. Posts from the Gorwa and Tandalja branches are shared on the same page without mentioning which branch they are from. Because of this, parents find it difficult to find their own child's activities. I will add a clear branch name to every post cover and caption, use separate branch hashtags (like #LCISGorwa and #LCISTandalja), and create separate highlights for each branch.
4. Your reels have nice real moments, but the covers do not show them. I will design clean covers and posts in your school colours, so the page looks professional.
5. I will write captions with a clear message for parents, plus location tags and local hashtags, so more parents in Vadodara can see your posts.
6. I will plan a monthly content calendar around your school events, and run admission campaigns for parents during admission season.
7. I will also help you with a simple parent consent process for children's photos and videos, to keep things safe and as per the rules.

Website (lcis.in) and Google

1. Some demo text from the website template is still showing, along with sample staff names. I will replace these with your real content and teachers.
2. Some links, such as the Privacy Policy, do not open. A privacy policy is important for a school under the new data protection rules (DPDP Act), so I will add a proper page.
3. The phone numbers on the website and Instagram are different. I will make all your details the same everywhere.
4. There is no simple admission enquiry form. I will add one, with a WhatsApp button, so parents can contact you easily.
5. I will do SEO for the website so that your school shows up on Google when parents search for "school in Tandalja" or "school in Vadodara", and set up Google Analytics so you can see how many people visit.
6. I will set up and improve your Google Business Profile for each campus, so you appear on Google Maps and parents can leave reviews.

How we can work together

Your team can keep capturing photos and videos at school, and I will take care of the strategy, design, captions, posting, SEO and monthly reports. This way your social media and website will work together to bring you more admission enquiries. The next pages show a few sample designs I have made for LCIS.

I would be happy to meet for 15 minutes and show you these points in detail. Please let me know a suitable time this week.

Thank you, and looking forward to hearing from you.

Sample designs for LCIS

1. Profile makeover

A clearer name, bio and branch highlights so parents find you and their child's branch easily.

2. Reel cover with branch label

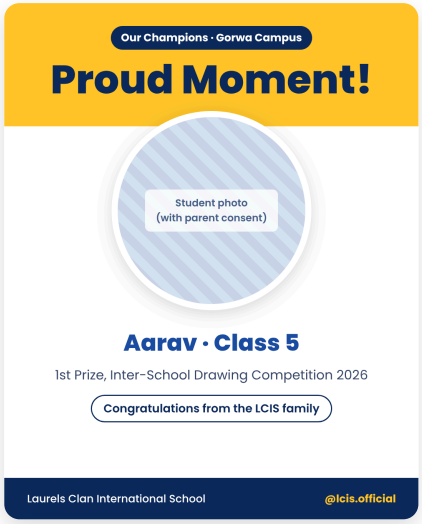

A real moment from the reel, the class and the campus name on every cover.

3. Admissions open
Clear classes, benefits and a WhatsApp enquiry button.

4. Parent tips
Useful posts parents save and share, which grows your reach.

5. Our Champions
Celebrate achievements, with the campus name and parent consent.

Note: These are sample layouts in your school colours. The striped areas will carry your own school photos and logo. Student photos will be used only with parent consent.
