How LCIS compares online with leading Vadodara schools

A look at what parents see on each school's website · Checked on 26 October 2026

Before choosing a school, most parents check its website, Instagram and Google listing. We compared LCIS with four well-known private schools in Vadodara on the things parents look for. No school is perfect online, and that is LCIS's opportunity: a few focused changes can put LCIS ahead.

What parents look for	LCIS	Navrachana (Sama)	Global Discovery (Sevasi)	Ambe Group	Tree House (Baroda)
Clear details for each branch (address, phone)	✗	Single campus	✓	◐	◐
Online admission enquiry form	✗	◐	✓	✓	✗
Next year's admissions (2027–28) announced	✗	✓	✗	✗	–
Real event photos with captions	◐	✓	◐	◐	✗
Social media linked from the website	◐	✓	✓	✓	✗
YouTube channel linked	–	✓	✓	◐	◐
Separate Instagram for each branch	✗	Single campus	–	✓	–
WhatsApp contact button	✗	–	–	–	✓
Privacy policy page (DPDP Act)	✗	✗	✗	✗	✗
Website free of template or placeholder text	✗	◐	✗	✗	✗

✓ Yes ◐ Partly ✗ No – Not checked or not applicable. Based on each school's public website home page on 26 Oct 2026; inner pages may differ.

The key insight: none of these schools has a privacy policy, and most websites still have unfinished parts. Parents notice this. If LCIS fixes the basics first, it can look more professional and trustworthy than much bigger names.

What LCIS can learn, and where it can lead

Good ideas from other schools

1. **Branch clarity, like Global Discovery and Ambe.** Global Discovery gives each campus its own page with address and phone numbers. Ambe runs a separate Instagram for each school unit. LCIS can label every post by branch, add Tandalja and Gorwa highlights, and give each branch its own page on the website.
2. **Announce admissions early, like Navrachana.** Navrachana already shows "Admissions 2027–28". The LCIS website still says "Admissions Open For 2026". Updating this now captures parents who start looking in November and December.
3. **Real photos with captions, like Navrachana.** Their event photos say what happened and where. LCIS already has real moments in its reels, so it should show them on covers and in the website gallery.
4. **Easy contact, like Tree House and Ambe.** Tree House has a WhatsApp button and Ambe has an enquiry form. LCIS can have both, so a parent can enquire in one tap.
5. **YouTube, like Navrachana and Global Discovery.** A YouTube channel linked from the website makes annual day and event videos easy to find.

Where LCIS can be first

- **Privacy policy and parent consent:** none of the five schools has a privacy policy page. LCIS can be the first, under the DPDP Act, which builds trust with parents sharing their children's details and photos.
- **A clean, complete website:** removing demo text and sample names, and adding real teachers, fees guidance and admission steps.
- **Google presence for both campuses:** a verified Google Business Profile for Tandalja and Gorwa, with parent reviews.

Instagram today

LCIS has 429 posts and 757 followers on @lcis.official, which shows the school posts regularly but is not yet reaching enough local parents. Clear branch labels, captions with a call to action, local hashtags and admissions campaigns are the fastest ways to grow this.

Fastgrows can handle all of this from strategy and design to captions, SEO, Google profiles and monthly reports, while your team keeps capturing school moments. Please see the attached budget for details.
