FASTGROWS

5 tasks your team can hand to AI this month

You don't need any technical skills for these.

1

Meeting notes

Turn rough call notes into a short summary with action points and who owns each one.

2

Quotation emails

Draft the covering email for a quotation. A person still checks every price and term.

3

Follow-up messages

Ask for a few versions of a follow-up and pick the one that sounds like you.

4

FAQ replies

Build a set of answers to the questions customers ask every week.

5

First drafts of content

Outline posts, captions and blogs, then add your own stories and numbers.

FASTGROWS

Don't paste these into public AI tools

1. Customers' personal data
2. Passwords and bank details
3. Unsigned contracts
4. Pricing you haven't shared publicly

AI drafts. You decide.

We help SME teams set up practical AI workflows for sales and marketing.
